Hi Mark,

Your monthly Direct Debit, which pays for your energy, has been declined.

Just to let you know, after two consecutive failed Direct Debit payments, we will switch your account to a variable Direct Debit schedule. Being on a variable schedule means that your account is paid in full each month. Payments are still taken by Direct Debit, just as before.

Love and power,
The Octopus Energy team

We do things a little differently at Octopus Energy. Find out more about support we can offer, our policies, and our approach to renewable energy.

You can also register your interest in a smart meter, or if you have one, change how often we take automatic readings from it (we collect smart meter data half hourly but you can change this at any time).
