Energy prices from January 2025 and what they mean for you

Dear Mark,

Ofgem recently announced an increase in energy prices for January to March of around 1.2%, or £1.75 per month, for a typical home. This is around 10% less than the same time last year. We continue to be the only large supplier to set our default standing charges meaningfully below the Ofgem Price Cap. For more detail, see this video from Greg, our founder: <https://octo.ps/jan-25>.

You'll find a personalised breakdown for you in this document. We won't adjust your payments right now. As ever, we'll monitor your payments and suggest a change if it looks like you're paying too much or too little.

With the colder weather setting in, it's important to let us know if you are struggling to pay your bills – you can apply or find out more about our support fund, standing charge help, or our electric blanket scheme at <https://octo.ps/crisis-support>.

It's also worth considering switching tariff or supplier – we're offering fixed rate tariffs with no exit fees that are cheaper than both current and January prices.

Smart tariffs can also help you save. If you can use less electricity during the 4-7pm peak each day, then Agile Octopus could be good for you. Alternatively, Octopus Tracker updates prices daily based on the latest wholesale rates. Drop us an email to **hello@octopus.energy** if you'd like to find out more.

Yours sincerely,

The Octopus Energy team

Electricity

Meter-point 2000000755375

Meter details	
Property	28 Waldegrave Road, London, W5 3HT
MPAN	2000000755375
Current tariff name	Flexible Octopus
Current tariff code	E-1R-VAR-22-11-01-H
Annual consumption	4,217.4 kWh

Your new prices

Electricity	Current prices	New prices
	until 31st December 2024	from 1st January 2025
Standing charge (per day)	62.225p	62.225p
Unit rate (per kWh)	24.617p	24.978p

Your estimated annual cost	Current prices	New prices
	until 31st December 2024	from 1st January 2025
Electricity (£15.24 annual increase)	£1,265.32	£1,280.56
