Hi Mark,

I hope you are well.

I didn't hear back from you concerning the gas reading and wondered if you'd had the chance to check what this was.

Thank you for your help.

All the best,

Richard

Hello Octopus,

Hope you're all doing well there.

The last bill (attached) does not seem correct. A couple of questions:

- 1. is the balance for gas and electric or just gas?
- 2. The total does not seem to take into account the debit repayment

transfer noted.

To be honest I am now completely confused.

More questions:

3; do you not combine gas and electric bills?

4. can you supply me with a breakdown of

GAS:

- how much OCTOPUS have charged (total) since taking over (GAS)
- the amount STILL owed to AVRO (apparently) (GAS)
- GAS meter readings - NOW and WHEN AVRO DISAPPEARED (i.e. when OCTOPUS

took over).

ELEC:

- how much OCTOPUS have charged (total) since taking over (ELEC)
- the amount STILL owed to AVRO (apparently) (ELEC)
- ELEC meter readings - NOW and WHEN AVRO DISAPPEARED (i.e. when OCTOPUS

took over).

And whether the above are estimated or actual, and the details of the last ACTUAL meter readings, who took them, and when - BOTH ELEC and GAS.

Sorry, but I am lost in the additions, subtractions and also that I've always received combined bills in the past.

I appreciate your assistance here.

Kind regards,
Mark.

Your energy statement

Full PDF bill attached

10th November 2022 - 27th November 2022

Your previous balance: -£1495.86

1. Charges on your account (Inclusive of VAT)

Electricity: -£118.27

Your new balance: -£1614.13

As you pay by Direct Debit, this statement doesn't need paying - it's just for your reference.

Full bill breakdown

You'll find a full breakdown attached, which you can keep for your reference.

Any questions email hello@octopus.energy

Love and power,

The Octopus Energy team

Since choosing Octopus, you've saved 966.71 kg of CO2 emissions - the equivalent of a forest of 483 trees over a whole year.

Hi Octopus (Octopussies?),

Thanks for your email.

Okay. Some confusion here.

I had a previous conversation with your representative and my bill should not be that much. Most of that amount - as per my previous discussion - was from a bill from Avro in which - as I explained in the email and you (Octopus) agreed with me - was when Avro actually added their (unauthorised - presumably desperately trying to get some cash in) direct debit to my bill, rather than deducting it. I agreed with your representative that we would reduce the bill by a given amount, which from memory left my balance at about £200 - owed to you (debit). I can dig up the emails if you like - but if I have to do that I'm going to dispute the whole of the Avro amount as it is a pretty unacceptable error to make - and they probably made similar errors in the past.

So could you let me know about that please.

After we've got to the bottom of that, I can take a look at the revised bill - or just start the dispute process - as necessary.

In the meantime, would you mind actually answering the questions I raised. Please quote the question first in your reply, so I know what answer refers to what question.

I really hope we can sort this easily. I like you guys, and think you're pretty innovative for an energy company!

So keep up the good work.

Regards,
Mark.
