Energy prices from October and what they mean for you

Dear Mark,

Ofgem have announced a cut in unit rates, but an Energy Price Cap increase for standing charges from October 1. **We have the cheapest standing charges of any large supplier, and will not be increasing them from October**, keeping them even lower below the cap.

From October 1, **we're also lowering your unit rates by an average of 8%**. You'll find a personalised breakdown of your new rates in this document.

If you're struggling to pay your standing charges, we may be able to offer standing charge holidays for those most in need - please let us know and we'll do our best to help.

Based on your annual usage and the new rates, we'll adjust your monthly payments to £475.03 from October.

It's always worth considering switching tariff or supplier. We don't know what will happen to energy prices in the future, but market analysts forecast that energy prices will stay around their current levels, with small rises and falls for the next 12 months.

If you simply can't afford to risk prices rising again, we are offering fixed price tariffs to existing customers – you can see more details, including a price comparison, alongside your prices. Drop us an email to **hello@octopus.energy** if you'd like to make the switch.

We will continue providing real customer support to help where we can through lower prices – we're the only large supplier to continually charge less than the price cap throughout the crisis – as well as our Octopus Assist fund. If you are struggling, you must get in touch – you can apply or find out more about our support fund, standing charge help, electric blanket scheme and energy helpers: <https://octo.ps/crisis-support>

Yours sincerely,

The Octopus Energy team

Electricity

Meter-point 2000000755375

Meter details	
Property	28 Waldegrave Road, London, W5 3HT
MPAN	2000000755375
Current tariff name	Flexible Octopus November 2022 v1
Current tariff code	E-1R-VAR-22-11-01-H
New tariff name	Flexible Octopus
New tariff code	E-1R-VAR-22-11-01-H
Annual consumption	3,919.0 kWh

Your new prices

	Current prices until 30th September 2023	New prices from 1st October 2023
