[Date]

Octopus Energy Complaints Team,

Formal Complaint Addendum – Direct Debit Withdrawal and Complaint Handling

I am writing to formally add to my existing complaint regarding the handling of my account and the withdrawal of funds by Direct Debit.

I am attaching copies of two relevant email threads for reference.

These documents show the following:

1. On **19 May 2023**, I wrote clearly stating that I **did not authorise** the proposed payment and that any attempt to collect the amount would be subject to a **Direct Debit recall**.
2. Despite this, on **6 June 2023** more than **£500 was taken from my bank account**.
3. In response I immediately requested:
 - a refund of the amount taken
 - confirmation that the matter had been **registered as a formal complaint**
 - details of Octopus Energy’s complaints procedure.
4. The statement issued by Octopus Energy (attached) also appears to show the account in **significant credit** at that time.

These matters have not been properly addressed.

In particular, I request that Octopus Energy provide a clear written response addressing the following:

- why a large Direct Debit was taken despite my written instruction that it was **not authorised**
- the basis used to determine the Direct Debit level given the apparent **account credit balance**
- confirmation of how the **formal complaint raised on 6 June 2023** was recorded and handled.

In addition, I must note that the failure to issue a clear complaint reference and properly respond to a formal complaint creates a **separate complaint issue in itself**.

If basic complaint-handling procedures have not been followed, I will raise this as an additional complaint.

Compensation

The time spent dealing with this matter has now become substantial.

Preparing correspondence, reviewing account information and assembling documentation has taken in excess of **11 hours** in total. For the purposes of resolving this issue I estimate this time conservatively at **£20 per hour**, representing **£220** in time spent addressing problems arising from this matter.

I request that Octopus Energy consider this when reviewing appropriate compensation for the inconvenience and administrative burden caused.

Please confirm:

- the **complaint reference number** for this matter
- the **outcome of the complaint investigation**
- the **current correct account balance**
- what steps will be taken to ensure the issues identified above do not recur.

I request that this addendum be recorded as part of the formal complaint file.

I will review your response before considering any further escalation.

Yours sincerely,

Mark Collins-Cope

Resent with additional email addresses due to Octopus Energy email misconfiguration.

Warning:

this is related one of four formal complaints raised already with Octopus.

I have received acknowledgement of only one. This makes no sense and in particular makes my attempts to provide clarity in communication very difficult.

So be it. Upon escalation the additional time (hours) wasted will be emphasised strongly. As will the fact that I have now raised lack of appropriate complaint registration with you at least twice now.

The 8 weeks clock is ticking. No correct response with complaint number - the matter will be raised immediately in time out of the 8 weeks.

As will the point below.

(reason for resending)

Reportedly (octoadmins) you are using Google groups for your complaints email address.

That is not my concern. However the now (at time of writing) +3 hours spent dealing with your email config errors is. And has been noted

--- See below ---
