About your TCR

Your Tariff Comparison Rate (TCR) is 5.49p per kWh

TCR is a figure which you can use to compare the price of the tariff you are on with alternative tariffs from us or other suppliers. It is based on an average customer's usage of 13,500.00 kWh of gas a year. It takes into account the unit rate, standing charge and any discounts that make up your tariff. The TCR is not based on your personal usage and so should only be used as a guide. Your actual rate will depend on the amount of gas you use.

For more information about your tariff and how the TCR is calculated visit our website or call us.
